We Are The Moving Minds

Who are we?

Sorbonne Paris Nord is one of the thirteen universities that were created after the reorganization of the old Sorbonne after 1968. It now has 24,000 students, spread across five campuses pursuing degrees or continuing education.

Truly multi-disciplinary in nature, Sorbonne Paris Nord is a major center of teaching and research in the north of Paris.

Where are we located?

Campus Villetaneuse, in north of Paris

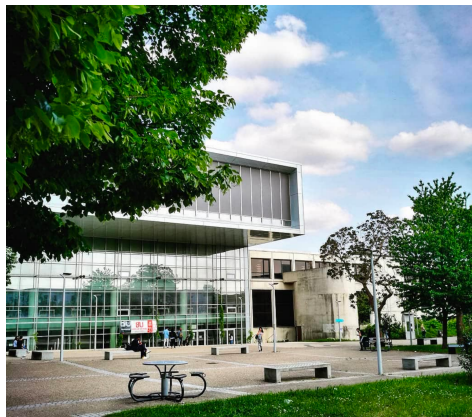

How to reach us?

Villetaneuse campus is easy accessible by public transport. If arriving by air at Paris Airport, go first to Paris North railway station. Then, to reach the campus, you can take public transportation. The easiest way is to take metro 13 in the direction of Saint-Denis Université and exit at Saint-Denis Porte de Paris station. Then take Tramway 8 towards Villetaneuse "Université" to the terminus.

We Are The Moving Minds

Description of the project

During the week, you will learn the many faces of Artificial Intelligence by working on a project to solve a problem with data coming from the sport sector. Expert lectures, workshops and working in a team are incorporated in the program to help you in this mission.

Goal

At the end of the project, you'll present your application and you'll have had an experience with our fellow students and teachers

Registration for students

The registration fee of 250 euros includes 5 nights with breakfast, 5 lunches, 1 dinner, social and cultural activities. You will be invoiced by your own school.
